

Quiz Bowl Instructions

Supplies Needed

- Whiteboard or poster board
- Markers
- Small prize such as candy (optional)
- Quiz bowl questions bank

Setup

- On whiteboard or poster board, make a list of numbers 1 – 36. 6 rows of 6 numbers work well.
- Create a score tracker based on number of teams – up to 4 teams.

1	2	3	4	5	6	<u>Team A</u>
7	8	9	10	11	12	
13	14	15	16	17	18	
19	20	21	22	23	24	<u>Team B</u>
25	26	27	28	29	30	
31	32	33	34	35	36	

Playing Instructions

- Divide the players into teams.
- Choose a game moderator, if not the instructor.
- Decide which team will go first and which player on each team will go first.
- When it is a person's turn, they choose any open number from the board. They do not need to choose in any particular order.
- The game moderator will mark an "X" through the chosen number on the board and read the corresponding question from the quiz bowl question bank.
- The player may seek help from their team, but must give the final answer. Allow an appropriate amount of time – 20 to 30 seconds is more than enough.
- If the player gives a correct answer, mark one tally point on their team's score tracker.  The turn now goes to the opposing team.
- If the player answers incorrectly, the other team may have a brief time to answer. If the opposing team answers correctly, they receive the point. Whether the opposing team answers correctly or incorrectly, they then proceed with their turn by choosing the next number.
- Each team must rotate through the players with each new turn.
- The game ends when there are no more questions or the time is up. The team with the most points wins. Optionally - distribute prizes to the winning team.
